While we have little apprehension that the Interior Department will] tolerate so flagrant an outrage upon the industrious settlers of the Muddy Valley as to rob them of their hard-earned homes, by setting aside the lands of that section for the Pinte Indians, still, through misstatements of designing men in the Indian Department, it might be done; and as there are no public records of bona fide pre-emptions and valuable farm improvements having been made in that section, it may be wise to publish the facts of the Muddy's settlement. A small colony of Mormons settled on the Muddy in 1864-53 they built houses, dag irrigating ditches, set out fruit trees and enclosed fields. When they found they were in Nevada instead of Utah, they abandoned their improvements, and the Piutes fell into possession. Of course, under their management, everything went to ruin-fences were torn down to make camp-fires, the irrigating ditches became filled with sand, and the houses were never claimed among themselves as individual property. Then a new class of white settlers entered the a new class of white settlers entered the country, who , though not recognizing any just claim on the part of the Piutes, to avoid trouble with them paid them what they demanded for the old Mormon improvements. And many entirely new locations have been made within the last two years, the improvement of which has eost much sweat and money, and now an taken the called by posting notices in three of the most public places in the district, for twenty days, and also, if there be a two years, the improvement of which has Indian Agent goes among these honest and hard-working settlers, who have put into the soil they are cultivating their last dollar, and tells them, after they have no more to lose, "Don't spend any more money here, for I'm going to have this set apart for an Indian reservation."

We ask cotemporaries throughout Nevada to join with us, to give us the benefit of their influence, in trying to prevent this threatened outrage. If the Piutes had the Muddy Valley all to themselves they would not cultivate it-the majority of them would be, as they are now, begging and loafing around the streets of Pioche. As a matter of policy an Indian reservation should not be so close to a large settlement of whites as the Muddy is to Pioche; and besides, the Muddy is surrounded by promising mining districts, which are about to be developed. Down on the Colorado river, where no lands have been appropriated, a good Indian reservation can be selected. There is no kind of necessity for ousting from their homes citizens of Lincoln county, who have made settlement in fields over to Piute Indians.

THE SPECIAL SCHOOL TAX.

Our remarks, in a late issue, on the proposed election to take the sense of the voters of this district in regard to raising. by special taxation, as chool-building fund, were based on what had been told us was the law governing the case. Now, the statute is before us, and we are convinced we were in error in saying an affirmative vote, under the election notice as published by order of the Board of Trustees. would not bind the property holders for over 50 cents on the \$100 of taxable property in the district. We believe, under the law and notice, an affirmative vote would bind the property holders to raise the full amount of \$20,000, if, in doing so, it should be necessary to levy a tax of one per cent, on all the property in the district taxable for educational purposes. We are unequivocally in favor of raising a young colt with the mare and the swellan ample fund for the construction of a new shoolhouse, but have no disposition to misland voters. Under section 35 of the school law we cannot see how an affirmative vote could be otherwise coustrued than as authorizing the raising of the \$20,000, let the per centage be as high as it might. It reads as follows: "The Board of Trustees of any scho

rict, the question whether a tax shall be raised to furnish additional school facilities for said district, or to keep any school or schools in such district open for a longer period than the ordinary funds will allow, or for building an additional school house or houses, or for any two or for twenty days, and also, if there for a newspaper in the county, by advertisement therein once a week for three weeks. Said notice shall contain the time and place of holding the election, the amount of money proposed to be raised, and the purpose or purposes for which it is intended to be used. The Trustees shall appoint three judges to conduct the election, and it shall be held is all other personnel. in all other respects as nearly as practi-cable in conformity with the General Election Law. At such election the ballot shall contain the words "Tax, Yes," or "Tax, No." If a majority of the votes cast are "Tax, Yes," the officers of the election shall certify the fact to the County Commissioners, together with a statement of the amount of money proposed to be raised, who shall ascer-tain the necessary percentage on the property of said district as shown by the last assessment made thereof after equalization, to raise the amount of money voted, and shall add it to the next county tax to be collected on the prop-erty aforesaid, [and] the same shall be paid into the County Treasury as a spe-cial deposit in favor of said school dis-trict, to be drawn in the same manner as other school moneys."

The election next Saturday, if not conclusive, may result in another being called, which shall more nearly conform good faith, and giving their cultivated in the proposition submitted to the wishes of the majority of the citizens. It had lawfully obtained possession of the defendant, and this Court should not interfere. That point alone was sufficient to dispose of the habeas corpus. Mr. Harrison, of Bogart's counsel, argued that the defendant did not belong to a class over which a Court-martial had jurisdiction, and that if the Court martial had once jurisdiction, that it was exhausted by limitation, besides this, the proceedings of the arrest were so informal as to be fatal to the jurisdiction of the Court-martial. Special dispatches from the Modoc country give the details of the beginning ment was begun yesterday morning and the fighting lasted till dark. Colonel Gillem, Colonel Mason, and Captain Mc-Kay, with 70 friendly Warm Spring Indians, have nearly surrounded Captain Jack and his band. While forming the Salmon fishing has commenced on line which incircles the Indians Colone the Columbia river, and it is expected Gillem placed mortars and howitzers in position and threw shell and balls into the Modoc camps. Two Modocs are known to be killed. In charging up the Bluffs Captain Eagan was badly wounded. Corporal Kibbeck, private O'Dooley Sergeant Seeley and private McMannus were wounded. In another charge private O'Connor was wounded. Colone; Gillem, comunding the expedition, is confident that his lines are formed so that the Modocs cannot escape. But in their impregnable line of defense one Modoc is a match for 100 soldiers. Captain Jack and his band have shown a bold front, and all through the day and at night his men were concealed in the rocks. To-morrow the treops will close in on the Indians and no doubt there will be heavy fighting.

The Jailer let him in to see Mortimer, but having his suspicions aroused, he would not let them converse. At an early hour this morning the man got over into the jail yard by means of a ladder and rang the bell leading from the outside gate, and then hid himself around the corner of the building and waited for the Jailer to come out and pass him on his way towards the gate. The Jailer came out with a pistol in his hand, and glancing around saw the man with a pistol.
